

ADVANCED DIGITAL RECORDER

SDR102F | SDR104F | SDR106F | SDR112F

ADVANCED DIGITAL RECORDER

SDR102F | SDR104F | SDR106F | SDR112F

Brightness and Clarity

- · 640X480 TFT-LCD
- · Implement 256K Color

Abundant Storage Space

- · Internal Memory: 4GByte (Permanent) (Can store for about 6 years based on 1 sec/ 12 channels)
- · External memory : 4GByte (SD card) Basic provision

Fast Record Data Search

- · Mount the FSA. (Fast Searching Algorithm)
- · Available for identify previous saved data during recording
- · Within about 1 sec in searching 1GByte data
- · Available for search of currently saving graph

Touch Screen Display

· Easy and convenient operation by touch screen

Convenient Message Function

- · Automatically enter messages for important events or actions
- · Easy Short Cut message function
- · Message Check in saved Graphs

Automatic Data Recovery Function

 Supports automatic recovery of missing data when the card is removed and re-inserted while saving the SD card (Internal memory / SD card simultaneous storage)

Exploring data

 Available for movement on screen by dragging and data can be analyzed by enlarging or reducing the data

Zoom in (X0.40) Zoom out (X8.96)

History Save Function

- \cdot Max, each 100 Errors, Alarms and Events histories
- · Can be saves as TEXT, CSV or PDF

Internal web server

- Available for display and sub-channel firmware updates via self-contained web server
- · Accessible through various devices such as PC, smartphone, tablet

User notes

· Available for note write and insert during data recording or in the recorded data screen

Data Management

- \cdot Available for sustainable storage with one file
- \cdot Support for simultaneous storage, transmission and deletion of Internal/External(SC) memory
- · Available for parameter back up via external (SD) memory

Communication and operation programs supported free of charge

· Support basic communication (RS232C/485, Ethernet) and operating program

Individual monitoring screens Integrated monitoring screen

FDA 21 CFR PART 11 COMPLIANCE

Access Control

- · User registration and management
- · User authorization
- User operation control

Electronic Signature

- Trend data electronic signature management
- Control access to electronic signature data

Electronic Record

- · System history management and user operation history management
- Long-term data recording based on large file system

Audit Trail

- · Track system history
 - User operation history tracking
- Track history by period and user

Access Control

- · System operation based on authenticated users
- · System user registration and management
- · Restrict system access according to each user's authority

Electronic Record

- · Provide database of electronic document records for the history of system event occurence
- · Generate operation history data for user's operation
- · Record previous and subsequent values of operation data for parameter

- Robust to data tampering and corruption by providing high security
- Easily and quickly perform a large amount of historical data search
 - Perform search filtering function by date and user more easily

Electronic Signature

Choose GOOD

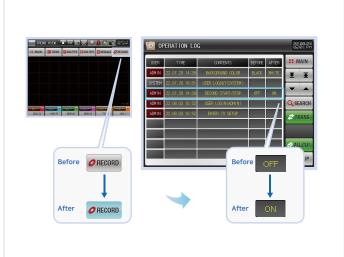

· Electronic signature for each trend data recorded by authorized users

Choose NG

Audit Trail

- · Support tracking by user and period
- · Can be saved as PDF or EXCEL

Product specification

Group	ltem	SDR102F		SDR104F		SDR106F	SDR112F
Screen	Display	5.7" TFT-LCD(640(W) X 480(H))					
	Display type	Trend, Bar, Digital, Event, History of Error, Information (Alarm, Message, Memory capacity)					
	Language	Korean, English, Japanese, Chinese					
Input section	Number of channel	2 Channel		4 Channel	6 C	hannel	12 Channel
	Input types	TC	K, J, E, T, R, B, S, L, N, U, W, Platinel II, C				
		RTD	Pt100(IEC), Jpt100(JIS), 1/100 Displayable				
		DCV	-5~10V, -10~20V, -1~2V, 0~2V, 0~5V, 1~5V, 0~10V, 0~20V, -10~20mV , -50~100mV, 0~20mV, 0~100mV(Scale : -30000 ~ 30000)				
		DCV unit	C, F, BLANK, %, Pa, kPa, %RH, mV, V, Ω, mmHg, kgF				
		TC/RTD unit C, F					
	Measurement interval	500ms					
	Input accuracy	±0.1% of full scale ±1 digit					
Alarm function	Number of alarm	Setting of maximum 4 alarms per a channel					
	Alarm type	High/Low of PV, In/Beyond of PV range, Above of PV rise rate, Below of PV rise rate Above/Below deviation among channels. sensor open					
Alarm output (Option)	Contact point quantity	A contact point Relay 6points, 12points					
		Normal open(Max. 30V DC 1A/250VAC 1A)					
Remote input (Option)	Contact point quantity	2points(Contact point Volume: Maximum 12V DC, 10mA)					
	Contact point function	DI errors and cycle recording, Setting the DI detection leg-time					
Data storage function	Internal memory	Flash memory(64M)/Non-volatile					
	Exterior memory	SD/SDHC card(FAT 32 format)					
	Save method	Save at the Interior/Exterior(SD card) memory					
	Data type	Recorded data & Message					
	Data format	Binary format					
Communication	Interface	Basic RS232C/485 selection, Communication speed: Max. 115,200bps , Ethernet(TCP/IP)					
	Protocol	PC-Link, PC-Link(Checksum), Modbus(ASCII, RTU)					
Product size and weight	Size	144(W) X 144(H) X 188(D) mm					
	Weight	1.1Kg 1.2Kg 1.3Kg					1.3Kg
	Case material	PC + ABS					
Power	Rated voltage	100 ~ 240V AC, 50/60 Hz					
	Consumed electric power	15VA Max.					

External dimension and panel cutting size

Panel cutting dimension (Unit: mm) 137' 180/MIN) 144 2 - 7mm (Panel thickness) 8.5

Model code
